Besides the Orient,—Others

THE Orient is our leader for the coming bicycle season. A handsome, "thoroughbred" wheel, right in every particular. A wheel that holds more world's records than any other. That doesn't always mean merely that "a good rider rode it," either. The wheel ridden is an important factor. There were other good riders than the Orient champions last year, yet the Orient riders won out. Why? Try an Orient a few

Did you know that all the world's records from one-quarter to 100 miles, with a few exceptions around the thirties, are held by the Orient? The "blue-ribbon" records,—the one mile, the one hour, and the 100-mile are all held by the Orient. Most of them were held across the water until the Orient made them American.

The Orient broke more than 200 *world's records* last season. You riders who know a thing or two, just stop and think of that a minute.

We have some *Humbers left*,—glorious remainders from a wrecked future. Just as good as they ever were,—and with all our cause to look

Just as good as they ever were,—and with all our cause to look askance at them, there was nothing so good as they, last year, and few so good this year. We sell the roadster at \$40, the Tourist at \$42, the Lady Number at \$45.

Short Lengths in Broadcloths There isn't a time in the year nor a day in the week when such an item as this is "out of season."

The finest sorts of broadcloths, in weights practically to suit yourself, at remnant prices. To be sure, they are in short lengths, but that doesn't matter, provided the short lengths are long enough for your particular needs.

A Finale to the Special Carpet Prices The carpet selling that began less than a month ago, has gained in a steady ratio with every day that went by. It is the crescendo that marks a crashing finale.

The entire Carpet Store is getting a sweeping. It is nearly swept clean. A matter of trade-policy,—nothing to do with the quality or the character of the goods.
